

Spray Foam Insulation Certification

RHINO LININGS CORPORATION certifies that BioBased 501w[®] spray foam insulation and DuraTite[®] 2.0 spray foam insulations are **Eligible Building Envelope Components** that qualify for a **Federal Tax Credit** allowed under Section 25C of the Energy Policy Act of 2005 which covers retrofits.

The law (Section 25C(c)(2)(A)) specifies: ...any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit, and meets the prescriptive criteria for such material or system established by the 2009 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of the American Recovery and Reinvestment Tax Act of 2009.

The IRS (Notice 2009-53) specifics: (a) An insulation material or system (including any vapor retarder or seal to limit infiltration) that--(i) is specifically and primarily designed (within the meaning of section 4.03 of this notice) to reduce heat loss or gain of a dwelling unit when installed in or on the dwelling unit; and (ii) May be taken into account in determining whether the building thermal envelope requirements established by the International Energy Conservation Code (IECC) are satisfied.
